## ERICSSON SELECTS R-MOR TO SUPPORT CYBER SECURITY EFFORTS

- Ericsson has approximately 115,000 professionals and customers in 180 countries, combining global scale with technology and services leadership. Ericsson supports networks that connect more than 2.5 billion subscribers. Forty percent of the world's mobile traffic is carried over Ericsson networks.
- Founded in 1876, Ericsson has its headquarters in Stockholm, Sweden. Net sales in 2015 were SEK 246.9 billion (USD 29.4 billion). Ericsson is listed on NASDAQ OMX stock exchange in Stockholm and the NASDAQ in New York.

New York, NY, July 13, 2016 – R-MOR, a leader in cutting-edge cyber, homeland and border security solutions, today announced that it has been selected by Ericsson, to support its cyber security initiatives. The work includes the characterization and planning of new and changing security arrays of single components through high and low level designs. R-MOR will provide services in operational and technical risk assessment planning, comparative reporting and open source intelligence analysis.

“We are pleased to be working with a company of Ericsson’s reputation and stature” said Ory Segev, CEO of R-MOR. “Today, companies of all strengths and sizes face the need to engage a team of experts with extensive knowledge in Information Security along with a strong technical expertise. R-MOR prides itself on being the go-to experts in this field” said Segev.

R-MOR VP and Cyber expert Mr. Harel Borovik said “R-Mor will function as an advising body for Ericsson and Ericsson’s customers. Cyber security is a critical issue for all businesses. While rapid technological developments have provided vast areas of new opportunity and potential sources of efficiency for organizations of all sizes, these new technologies have also brought unprecedented threats with them. Cyber security will only become more important as more devices, ‘the internet of things’, become connected to the internet.”

### About R-MOR

R-MOR was founded by intelligence professionals of unparalleled knowledge and experience in designing and leading operations to protect some of the world’s most high-risk assets. The company is proficient in cyber defense, homeland security and border security with deep operational and managerial experiences ranging from security protection to defending governmental and private sector high-level assets and institutions.

R-MOR specializes in the protection of high-risk assets worldwide. When it comes to defending and protecting business or government assets, we combine cutting edge technology with deep industry knowledge to create individualized solutions that cover all aspects of security, from design to implementation. R-MOR enables clients to take a proactive approach to protecting their assets. R-MOR’s experienced leadership team takes a hands-on approach with each client to develop security solutions that recognize, analyze and resolve threats.

### About Ericsson

Ericsson is the global leader in telecommunications managed services, managing networks for multiple operators worldwide via a combination of global and local network operations centers.
